

DOAN XUAN TOAN

GAME DEVELOPER INTERN

Email: doanxuantuan3524@gmail.com

Phone: 0942482364

Portfolio: <https://portfoliodxt.vercel.app/>

Github: <https://github.com/tooru352>

Address: Da Nang city

PROFILE SUMMARY

Third-year Management Information Systems student with a foundation in web and mobile application development. Experienced in working with HTML, CSS, JavaScript, Flutter, Django, and REST API basics to build responsive and user-friendly applications. Passionate about game development and currently self-learning Unity to pursue a future career as a Game Developer.

EDUCATION

University of Economics - The University of DaNang

2023 - 2027

Major: Management Information System - MIS

GPA: 3.73 / 4.0

HARD SKILL

Programming Languages: C#, HTML, CSS, JavaScript, Python, Dart

Framework & Technologies: Unity (Learning), Flutter, Django, Responsive UI

Database: SQL Server, MongoDB

Tools: Android Studio, VS Code, IntelliJ IDEA, PyCharm, Git

Concept: OOP, REST API (Basic)

Design Tools: Adobe Photoshop, Illustrator, Premiere Pro, After Effects, CapCut, Digital Drawing Tablet

Languages: English (Basic Reading & Communication), Japanese (Beginner - N5), Chinese (HSK 3)

SOFT SKILL

Observation

Decision making

Communication

Time Management

Presentation Skills

Adaptability

CERTIFICATIONS

TOEIC: 595 - IIG VIET NAM

20/07/2024

WORK EXPERIENCE

Media & Communications Designer

2023 – Present

Youth Union – Faculty of Statistics & Informatics

- Designed media publications for faculty events and student activities.
- Created posters, banners, social media content, and promotional videos.
- Worked with design and editing tools such as Adobe Photoshop, Illustrator, Premiere Pro, After Effects, and CapCut.
- Utilized a drawing tablet for digital illustration and graphic design in Photoshop.
- Designed basic characters, backgrounds, and visual assets for media content.
- Collaborated with team members to develop creative ideas and event communication materials.
- Managed multiple design tasks while ensuring deadlines and visual quality.

Part-time Restaurant Service Staff

2023 – Present

Four Points by Sheraton Danang

- Supported restaurant operations in a fast-paced 5-star hotel environment.
- Assisted guests and ensured professional customer service standards.
- Improved communication, teamwork, and problem-solving skills through daily customer interactions.
- Adapted to flexible shifts and high-pressure working environments.

2D Platformer Game - Unity & C# - Personal Project

05/2026 - Present

Github: <https://github.com/tooru352/GameLearning.git>

- Designed game concept from scratch, including character design and background art, to create a cohesive visual style for the platformer.
- Built a 2D platformer game to learn Unity basics, including player movement (jump, double jump, wall slide), enemy behavior, and collectible items.
- Implemented checkpoint system for player respawn and health management with simple UI feedback.
- Created interactive platforms (moving, falling) and basic camera follow system to enhance gameplay experience.
- Learned C# scripting fundamentals, Unity physics (Rigidbody2D, Collider2D), and how to structure game code with multiple scripts working together.

Social Networking Web Platform Social

03/2026 - 05/2026

(Responsible for Post Management Module) - Course Project

Github: https://github.com/tooru352/NHOM2_LTW_49k14.1.git

- Built a social networking web application using Django MVC framework with post management system supporting multi-image uploads, user authentication, and profile management.
- Developed comprehensive post CRUD operations with date-organized media storage, enabling users to create, edit, delete, and share posts with multiple images.
- Implemented Django ORM with SQLite database for efficient post data management and media file handling through RESTful API design.

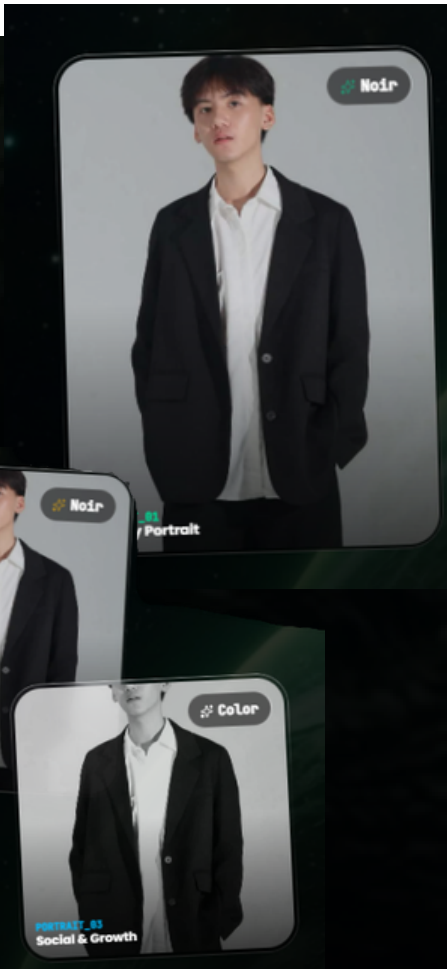

Internal Social Networking Mobile Platform using Flutter & Node.js

03/2026 - 05/2026

(Responsible for Post Management Module) - Course Project

Github: https://github.com/tooru352/Mobile_49K14.1.git

- Developed post management features using Flutter with audience control, emotion reactions, user tagging, and sharing.
- Implemented media upload system with Cloudinary CDN to handle image/video uploads up to 50MB with automatic optimization.
- Designed database schema using Mongoose ODM with MongoDB Atlas, implementing soft delete, pagination, and navigation features.

BRIDGING SYSTEMS ENGINEERING, DESIGN, AND ANALYTICAL BUSINESS STRATEGY

ABOUT DX.TOAN

As a Junior Management Information Systems (MIS) student at the University of Economics, Da Nang, my education is a powerful hybrid of technology architectures and corporate operation systems. I enjoy the strict logical rigor of writing clean, scalable code as well as the aesthetics of responsive, beautifully crafted graphic design. My development journey is fueled by a relentless drive to learn new tools, build fluid user experiences, and master 2D physics-based gameplay interaction in Unity.
